Hot guy with a handy tip
Come on, baby, light my fire

This month, **Urs Buhler** of opera-pop quartet Il Divo hits the road with his bandmates, supporting their new album *The Promise*. But when he's not on tour, he's cozying up at home around the fireplace. Here's Urs's tip on keeping your home fires burning. (As if looking at his photo weren't enough...)

“ I bought a house a year ago, and in the dining room is this beautiful, large open fireplace. Come winter, I lit a fire in it and in no time the whole house was filled with smoke. So I went online and discovered many interesting things, including that if your house is too airtight, with all modern windows and doors, that can obstruct the working of a chimney. Chimneys need a draft. So when you're lighting a fire, check to make sure you've opened the damper—and then open a window just a fraction. That can make a huge difference. ”

No way!

Here's a blast from your candy necklace-wearing past...only now in sexier bra and G-string form. Strap on this colorful getup and treat your guy to something sweet. But don't say you weren't forewarned about sticky sheets. (Bra and G-string, \$8.50 each at cleosboutique.com.)
